

SPANISH LANGUAGE EDUCATION DAY SESSION

2017 WORLD CONGRESS OF PSYCHIATRIC GENETICS

OCTOBER 13 – 17, 2017

LOEWS SAPPHIRE FALLS RESORT

The Spanish Language Education Day session will be held on Friday, October 13th at the 2017 World Congress of Psychiatric Genetics. The goal is to bring Spanish speaking researchers and clinicians up to date with the latest findings in psychiatric genetics. Discussions will include research experiences and funding opportunities in Spanish speaking countries to build collaborative networks for future projects. The course will be an all-day session combined with lectures, group discussions and networking opportunities. **All lectures will be presented in Spanish.**

PRESENTERS:

Henriette Raventós, *Introduction on Psychiatric genetics, Current Findings and Advances*

Ney Alliey, *Genetic Variants and Risk of Disease*

Javier Conteras, *Quantitative Genetic Analysis of Anxiety Trait in Bipolar Disorder*

Consuelo Walss-Bass, *Gene-Environment Interactions in Risk for Disease*

Hae Kyung Im, *Statistical Methods to Explore the Phenotypic Consequences of Gene Regulation*

Daniel Mueller, *Pharmacogenomics: Towards a New Era of Personalized Medicine in Psychiatry?*

Humberto Nicolini, *Pharmacogenomic Resources in Latin America and Ongoing Studies*

Gabriel Lazaro-Munoz, *Harmonizing Return of Results Policies in International Psychiatric Genomics Research Collaborations*

Ana María Díaz Zuluaga, *Research Experience in Psychiatric Genetics in Colombia: Ongoing Studies*
